June 4 - July 30. (Celestin Lorenzo) Rm. B115

This long-running discussion class was inspired by the exchange of ideas that took place in Athens 2500 years ago, when Socrates, Sophists and the general populace met on various street corners to gossip and discuss events of the day - religion, the gods, politics, art, theater, education, science, technology - any subject important or frivolous.

Hopefully, the material presented for discussion will give participants insight into alternate ways of looking at various ideas, issues and subjects. Our objective is to achieve personal growth and enrichment and have some fun along the way.
